

My Mom does great things for me. After school she helps me do homework. She shows me more tricks I can do for my homework. She shows me how to be a good person. My mom helps me and does lots of fun things with me. When I mess up my mom tells me what I did wrong, and then I learn from my mistakes. I love my mom so much because she does a lot of very nice things for me. My mom is the best mom ever!

Dear Mom & Dad,

You are very special parents to me. True you can be a bit grumpy sometimes but not all the time. You comfort me, you encourage me. You guys are very nice. Most of the time. Kidding!!! HaHaHa!! Oh! And don't worry, I'll start doing chores. 'Cause I need money. Like lot's of it! But I'll do it for free sometimes. Dad, thanks for letting of on the yelling. I don't like all that RAAAAAAAAAAAAAGGGGHHHH! I'm mean! MWA-HA-HA-HA! That can be scary. But, as I said before you hardly do it anymore! You only did that when I was little. Mom you are very, very, very, very nice. You don't have to get me a rabbit if you don't want to but I really want one! I'm gonna name him Houdini! You are very nice parents.

Love,

Aidan

My mom has many different qualities. She makes the best meals in the world, especially her Mac and Cheese! She also would do anything for me and TRIES to be the best mom she could ever be, even though she can be a little more on the mean side sometimes. I love my mom and she loves me know matter what I do. My mom also showed me how to read, but of course I learned how to read at school too. Everyone knows that a good parent would teach you right from wrong so I guess my mom is a good parent. I know my mom is always there for me and I love that about her. And the last quality.....my mom is not just my mom for life she is my friend for life!
