Mom you are "special" because you always help me when I need help. You do creative things like making me look really cool for "80's day" at school even though I told you right before I went to bed. You don't get mad at me when I am sick and crawl into bed with you and puke on your blanket. When I get into trouble you still love me. You help me with my homework even when you are really tired. You make me laugh until I get hiccups. Mom you are special because no matter what you always love me.

Dear Mom,

There are many different qualities that make you special to me. Two of those qualities are the way you work two jobs and you're there when we need you. A time when I felt those qualities was when we went to go see Great Grandma. Do you remember that? We helped Grandma because nobody was there to help her. That is a memory I will probably never forget!

When I become a parent I will try to help people like you. I am so lucky you are my parent!

Your daughter,
Carli

Dear Dad

There are many different qualities that make you special to me. Two of those qualities are the way you teach me stuff about life and help me with my homework when it is hard. A time when I really felt those qualities was when we went fishing in the summer. Do you remember that? We had to ride home in some big waves and we got wet. It was a fun time. That is a memory I will probably never forget! When I become a parent I will try to be just like you. I am so lucky you are my parent!

with love
Bryce
